POLICY RESPONSE

NDP Economic Interventions

The national development plan will be achieved through

- **Improve skills base** through better education & vocational training.
- **Raise exports** – specifically in mining, construction, mid-skill manufacturing, agriculture & agro-processing, tourism & business services.
- **Support small businesses** (better coordination of activities in small business agencies, development finance institutions & public & private incubators).
- **Increase investment** in social & economic infrastructure to lower costs, raise productivity & bring more people into mainstream of economy.
- **Reduce regulatory burden** in sectors where private sector is the main investor to achieve greater capacity & lower prices.
- **Increase size & effectiveness of innovation system** & closer alignment with companies that operate in sectors consistent with growth strategy.
- **Improve functioning of labour market** to help economy to absorb more labour, through reforms & specific proposals concerning dispute resolution & discipline .
- **Improve capacity** of the state to effectively implement economic policy.
- **Greater cooperation** between public & private sectors, sometimes through PPP's.
- **Corruption** - capacity of corruption-fighting agencies needs to be enhanced.

Mpumalanga V2030: Priority Outcomes

- In line with the principles of the NDP, V2030 highlights the following socio economic outcomes as priorities:
 - Employment & Economic Growth
 - Education and Training
 - Health care for all
 - Social Protection
- These priorities do not imply that the “normal business of government” should be deferred, but rather aim to focus the activities and decisions of the Province on key areas leveraging high impact for improved and sustainable long term socio-economic development in Mpumalanga.
- The achievement of these outcomes is further dependent on the critical success factors described as “mechanisms” and “conditions” below.

Organizing Structure of the Framework

- **Economy and employment**
- **Improving education, training and innovation**
- **Health care for all**
- **Social protection**

**SOCIO-
ECONOMIC
OUTCOMES**

- **Economic infrastructure**
- **Transforming human settlements**
- **Environmental sustainability and resilience**
- **Inclusive rural economy**

MECHANISMS

- **Building a capable and developmental state**
- **Fighting corruption**
- **Building supportive, safe and cohesive communities**

GREEN ECONOMY PLAN

Green Economy Development Plan

Implementation pillars

Prioritised opportunities

Biomass

- Generating electricity from bio-mass
- Feasibility study on developing a bio-products industry

Farming for food security

- Support for sustainable small-scale and community farming
- Training in sustainable agricultural practices
- Development of agriculture industry outside of established farming based on Agri-hubs
- Agro-forestry

Towns and urban centres

- Waste management
- Generating electricity from landfill waste
- Rollout of solar PV and energy efficiency
- Clean cooking stoves

Sustainable Tourism

- Expansion of eco-tourism and develop PPPs with large, private landowners for tourism initiatives
- Development of small, sustainable enterprise development on protected land

Climate Change and Mitigation Strategy

**economic development
& tourism**
